

Axle Feature Guide

6Ball HEAVY DUTY AXLE

- Hi-performance molybdenum grease reduces heat and friction
- Precision machined for precise OEM fitment
- Low profile stainless steel clamps
- Laminate coating resists rust and corrosion
- Heavy-duty neoprene boots create a waterproof seal
- Exceeds OEM axle strength and is 30% stronger than competitive axles*

8Ball EXTREME DUTY AXLE

- 8 precision ball bearings allow for smoother operation and increased joint strength
- Up to 35% larger cages and races - increasing strength and durability
- Black oxide coating for ultimate rust and corrosion protection
- Hi-Performance molybdenum grease reduces heat and friction
- Precision machined for precise OEM fitment
- Low profile stainless steel clamps
