Filters

So why choose Champion?

Champion motorcycle filters are precision-engineered to match or exceed OE standards. They are made from the highest quality materials and manufactured to exacting standards ensuring virtually zero defects. On the road (and off the road) they deliver maximum performance with unrivalled protection.

Advantages of choosing Champion

Extended life

Independent tests, (ISO 4548 - oil, and ISO5011 - air) have shown that Champion filters outperform the competition. We guarantee quality across our entire motorcycle filter program.

Life Cycle Efficiency

Tests carried out by independent source according to industry standard ISO 4548/4. The graph clearly shows that the Champion filter filters more efficiently than the competitor's filters.

Service Life Filter Efficiency

Superior performance

Our filter paper is unique and impregnated with resin that removes even the most damaging contaminants from the oil. Pleated, cured and mechanically joined to guarantee 100% filtration.

- Impregnated with sophisticated fibres ensuring rigidity, good tensile and burst strength
- Layers of fibres integrated across each other give the paper depth and structure
- Filter paper traps particles on the surface and also locks them inside the media allowing far fewer particles through the engine

Reliability with MAXIMUM engine protection

Informazioni Tecniche

Filtri

Perché scegliere Champion?

I filtri moto Champion sono progettati con precisione per eguagliare o superare gli standard di primo impianto. Sono realizzati con materiali della massima qualità in conformità a rigorose norme che garantiscono la perfezione. Sulla strada (e fuori strada) assicurano le massime prestazioni con una protezione ineguagliabile.

Vantaggi della scelta Champion

Durata più lunga

Test indipendenti (ISO 4548 per i filtri dell'olio, e ISO5011 per i filtri dell'aria) hanno dimostrato che i filtri Champion surclassano la concorrenza; noi garantiamo inoltre la qualità in tutta la nostra gamma di filtri moto.

Efficienza di Lavoro

I tests sono sostenuti da un ente indipendente secondo la normativa ISO 4558/4. Il grafico mostra chiaramente che il filtro Champion lavora con più efficienza rispetto agli altri 2 concorrenti.

Durata dell'efficienza del filtro

Prestazioni eccezionali

La nostra carta filtrante è unica nel suo genere e impregnata con una resina che rimuove anche i contaminanti più nocivi dall'olio. Pieghettata, trattata e meccanicamente fissata per garantire un filtraggio al 100%.

- Impregnata con fibre sofisticate per garantire rigidità, buona resistenza sia a trazione che allo scoppio
- Strati di fibre integrati e sovrapposti conferiscono spessore e struttura al filtro
- La carta filtro non solo intercetta le particelle sulla superficie, ma le blocca anche all'interno del fluido lasciando passare nettamente meno particelle verso il motore

Affidabilità con MASSIMA protezione del motore

Información Técnica

Filtros

¿Por qué elegir Champion?

Los filtros Champion para motocicletas están diseñados con la precisión necesaria para alcanzar e incluso supera los estándares marcados por el OE. Construidos con los materiales de la más alta calidad, según los niveles de solicitud más exigentes, aseguran de esta manera su perfección, ofreciendo el máximo rendimiento tanto en aplicaciones para carretera como off-road, aportando siempre las máximas prestaciones.

Las ventajas de elegir Champion

Prolongada vida útil

Los ensayos independientes realizados (ISO 4548 - aceite e ISO5011 - aire) han demostrado que los filtros Champion superan las prestaciones de la competencia. De esta manera podemos garantizar la óptima calidad en toda nuestra oferta en filtros para motocicletas.

Eficiencia en el ciclo de vida

Ensayos realizados por laboratorios independientes aseguran la calidad continua según la normativa ISO 4548/4. El gráfico muestra claramente como los filtros Champion filtran más eficientemente que los filtros de la competencia.

Eficiencia del filtro en su ciclo de vida

Rendimiento Superior

Nuestro exclusivo papel de filtrado, recubierto e impregnado de resina, elimina los contaminantes más perjudiciales para el motor. Con la tecnología de plegado, endurecido y unido mecánicamente garantizan el 100% de filtrado.

- Impregnado de sofisticadas fibras asegurando su rigidez y una buena resistencia a la tracción y ruptura
- Las capas de fibras integradas, entrelazándose y conformando el espesor y estructura al papel
- El papel de filtro no sólo atrapa las partículas en la superficie, sino también las encierra en el medio impidiendo así que muchas partículas pasen al motor

Fiabilidad con la MÁXIMA protección para el motor

Informations Techniques

Filtres

Pourquoi opter pour les filtres Champion ?

Les filtres pour motos Champion sont développés selon des procédures d'ingénierie qui égalent, voire surpassent, les normes d'origine. Ils sont produits à partir de matériaux de qualité supérieure, en appliquant les normes de fabrication les plus strictes, garantissant l'absence virtuelle du moindre défaut. Sur la route (et en dehors des sentiers battus), ils assurent une performance optimale et une protection inégalée.

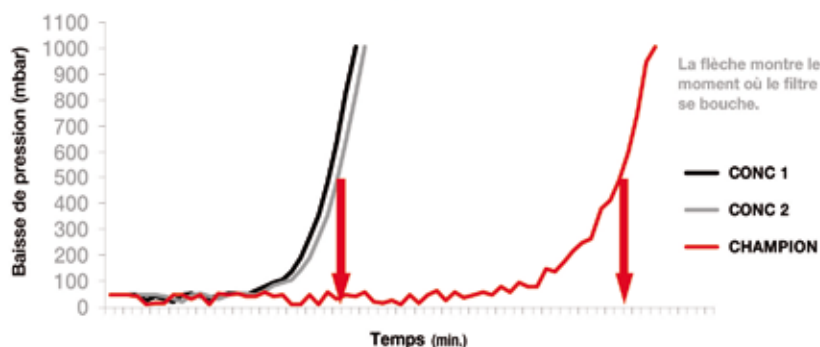

Avantages du choix Champion

Durée de vie plus longue

Des tests indépendants (ISO 4548 – pour le filtre à l'huile et ISO5011 – pour le filtre à air) ont démontré que les filtres Champion surclassent la concurrence et nous garantissons en plus de la qualité pour toute notre gamme de filtres motos.

Efficacité tout au long de la durée de vie du filtre

Tests menés par des laboratoires indépendants selon les normes ISO4548/4. Les résultats montrent que les filtres Champion sont plus efficaces que les filtres concurrents.

Longévité des filtres

Performance améliorée

Notre papier filtrant est unique et imprégné de résine qui élimine même les contaminants les plus néfastes de l'huile. Gaufré, durci et assemblé mécaniquement pour garantir un filtrage à 100%.

- Imprégné de fibres sophistiquées qui assurent rigidité et excellente résistance à la pression et à l'éclatement
- Le maillage des fibres donne structure et profondeur au papier
- Le papier filtrant capture non seulement les particules en surface, mais il les enferme également à l'intérieur du support, laissant passer nettement moins de particules vers le moteur

Fiabilité et protection MAXIMUM du moteur

Technische Information

Filter

Warum Champion wählen?

Champion Motorradfilter sind präzisionsgefertigt, um den Ansprüchen der Originalhersteller zu entsprechen oder sie zu übertreffen. Sie werden aus Materialien höchster Qualität und gemäß anspruchsvollen Standards hergestellt und gewährleisten so praktisch Störungsfreiheit. Auf der Straße (und im Gelände) erbringen sie maximale Leistungen mit beispiellosem Schutz.

Vorteile von Champion

Längere Lebensdauer

Unabhängige Tests, (ISO 4548 - Öl, und ISO5011 - Luft) haben gezeigt, dass Champion-Filter die Konkurrenz leistungsmäßig übertreffen, und wir garantieren Qualität für unser gesamtes Motorradfilter-Programm.

Wirkungsgrad im Lebenszyklus

Der Test wurde von einem unabhängigen Institut gemäß dem Industriestandard ISO4548/4 durchgeführt. Das Diagramm zeigt deutlich, dass Champion wirksamer filtert als die Mitbewerber.

Lebensdauer der Filter

Überlegene Leistung

Unser Filterpapier ist einzigartig und imprägniert mit Harz, das sogar die schädlichsten Schadstoffe aus dem Öl beseitigt. Gefaltet, ausgehärtet und mechanisch verbunden, um 100% Filtration zu garantieren.

- Imprägniert mit hochentwickelten Fasern, die Steifigkeit, gute Zug- und Druckfestigkeit gewährleisten
- Miteinander integrierte Faserschichten verleihen dem Papier Tiefe und Struktur
- Das Filterpapier fängt nicht nur Partikel auf der Oberfläche, sondern schließt auch Partikel innerhalb des Mediums ein, wodurch viel weniger Partikel in den Motor gelangen

Double Copper Technology
Copper Core Centre Electrode
Copper Core Ground Electrode

THERMAL CONTOUR FIRING TIP

Projected Core Nose

- Extended nose projection of the plug creates a longer path for heat to travel.
- The plug stays hot during periods of prolonged idling...preventing cold fouling.
- The plug stays cool at High RPM due to the Charge Cooling effect of the incoming Air/Fuel mixture.
- This gives POWERSPORT a much more dynamic heat range over standard plugs.

All of these characteristics allow you to use only one powersport code in replacement of different standard codes (see the table)

POWERSPORT™

EN

Power Boost Firing End

Fine-wire projected electrode design delivers more power and maximum fouling protection. V-trimmed ground electrode keeps spark concentrated through all engine demands.

'Q' - Suppressor

Wire-wound low-ohm resistor enables full ignition energy to reach the cylinder where it is needed most.

Thermal Contour Firing Tip

Modifies electrode heat transfer to prevent deposits while idling and plug overheating during high-speed operation.

I

Punta di accensione che aumenta la potenza

L'elettrodo sporgente a filo sottile consente maggiore potenza e la massima protezione dagli imbrattamenti. L'elettrodo di massa a V mantiene la scintilla concentrata in presenza di qualsiasi fabbisogno del motore.

Soppressore 'Q'

La resistenza a filo a spirale a basso valore ohmico consente a tutta l'energia della scintilla di raggiungere il cilindro laddove è più necessaria.

Punta di accensione a contorno termico

Modifica il trasferimento di calore degli elettrodi impedendo la formazione di depositi al regime di minimo e il surriscaldamento della candela agli alti regimi.

E

Extremo de encendido que aumenta la potencia

El diseño de electrodo proyectado de filamento fino proporciona más potencia y una máxima protección contra la incrustación. El electrodo de tierra terminado en 'V' mantiene concentrada la chispa durante todas las exigencias del motor.

Supresor 'Q'

Resistor de hilo bobinado de baja resistencia que permite la llegada de la máxima energía de encendido al cilindro donde sea más necesario.

Punta de encendido de contorno térmico

Modifica la transferencia térmica de los electrodos para impedir la formación de depósitos al ralentí y el recalentamiento de la bujía durante la operación a alta velocidad.

F

Pointe d'allumage plus robuste

L'électrode saillante à fil fin favorise plus de puissance et une protection maximale contre l'encrassement. L'électrode de masse en V concentre parfaitement l'étincelle, peu importe les exigences du moteur.

Dispositif antiparasite de type 'Q'

La résistance à bobine à induction à faible résistance ohmique permet à toute l'énergie de l'étincelle d'atteindre le cylindre, là où elle est le plus nécessaire.

Pointe d'allumage à contour thermique

Modifie le transfert de chaleur afin de prévenir l'accumulation de dépôts au ralenti et la surchauffe de la bougie lors de la conduite à haute vitesse.

D

Zündung mit Power Boost

Ein mit Feindraht geschütztes Elektrodendesign ergibt mehr Leistung und maximalen Schutz vor Verschmutzung. Die V-beschnittene Masseelektrode hält die Zündkerze während sämtlicher Motoranforderungen konzentriert.

'Q'-Entstörer

Drahtgewickelter Widerstand mit geringem Ohm ermöglicht, dass die vollständige Zündungsenergie den Zylinder erreicht, wo sie am meisten benötigt wird.

Zündungsspitze mit thermischer Kontur

Modifiziert den Wärmetransfer der Elektrode, um Ablagerungen während des Leerlaufs und die Überhitzung der Kerze im Hochgeschwindigkeitsbetrieb zu vermeiden.

Filters

So why choose Champion?

Champion motorcycle filters are precision-engineered to match or exceed OE standards. They are made from the highest quality materials and manufactured to exacting standards ensuring virtually zero defects. On the road (and off the road) they deliver maximum performance with unrivalled protection.

Advantages of choosing Champion

Extended life

Independent tests, (ISO 4548 - oil, and ISO5011 - air) have shown that Champion filters outperform the competition. We guarantee quality across our entire motorcycle filter program.

Life Cycle Efficiency

Tests carried out by independent source according to industry standard ISO 4548/4. The graph clearly shows that the Champion filter filters more efficiently than the competitor's filters.

Service Life Filter Efficiency

Superior performance

Our filter paper is unique and impregnated with resin that removes even the most damaging contaminants from the oil. Pleated, cured and mechanically joined to guarantee 100% filtration.

- Impregnated with sophisticated fibres ensuring rigidity, good tensile and burst strength
- Layers of fibres integrated across each other give the paper depth and structure
- Filter paper traps particles on the surface and also locks them inside the media allowing far fewer particles through the engine

Reliability with MAXIMUM engine protection

Informazioni Tecniche

Filtri

Perché scegliere Champion?

I filtri moto Champion sono progettati con precisione per eguagliare o superare gli standard di primo impianto. Sono realizzati con materiali della massima qualità in conformità a rigorose norme che garantiscono la perfezione. Sulla strada (e fuori strada) assicurano le massime prestazioni con una protezione ineguagliabile.

Vantaggi della scelta Champion

Durata più lunga

Test indipendenti (ISO 4548 per i filtri dell'olio, e ISO5011 per i filtri dell'aria) hanno dimostrato che i filtri Champion surclassano la concorrenza; noi garantiamo inoltre la qualità in tutta la nostra gamma di filtri moto.

Efficienza di Lavoro

I tests sono sostenuti da un ente indipendente secondo la normativa ISO 4558/4. Il grafico mostra chiaramente che il filtro Champion lavora con più efficienza rispetto agli altri 2 concorrenti.

Durata dell'efficienza del filtro

Prestazioni eccezionali

La nostra carta filtrante è unica nel suo genere e impregnata con una resina che rimuove anche i contaminanti più nocivi dall'olio. Pieghettata, trattata e meccanicamente fissata per garantire un filtraggio al 100%.

- Impregnata con fibre sofisticate per garantire rigidità, buona resistenza sia a trazione che allo scoppio
- Strati di fibre integrati e sovrapposti conferiscono spessore e struttura al filtro
- La carta filtro non solo intercetta le particelle sulla superficie, ma le blocca anche all'interno del fluido lasciando passare nettamente meno particelle verso il motore

Affidabilità con MASSIMA protezione del motore

Información Técnica

Filtros

¿Por qué elegir Champion?

Los filtros Champion para motocicletas están diseñados con la precisión necesaria para alcanzar e incluso supera los estándares marcados por el OE. Construidos con los materiales de la más alta calidad, según los niveles de solicitud más exigentes, aseguran de esta manera su perfección, ofreciendo el máximo rendimiento tanto en aplicaciones para carretera como off-road, aportando siempre las máximas prestaciones.

Las ventajas de elegir Champion

Prolongada vida útil

Los ensayos independientes realizados (ISO 4548 - aceite e ISO5011 - aire) han demostrado que los filtros Champion superan las prestaciones de la competencia. De esta manera podemos garantizar la óptima calidad en toda nuestra oferta en filtros para motocicletas.

Eficiencia en el ciclo de vida

Ensayos realizados por laboratorios independientes aseguran la calidad continua según la normativa ISO 4548/4. El gráfico muestra claramente como los filtros Champion filtran más eficientemente que los filtros de la competencia.

Eficiencia del filtro en su ciclo de vida

Rendimiento Superior

Nuestro exclusivo papel de filtrado, recubierto e impregnado de resina, elimina los contaminantes más perjudiciales para el motor. Con la tecnología de plegado, endurecido y unido mecánicamente garantizan el 100% de filtrado.

- Impregnado de sofisticadas fibras asegurando su rigidez y una buena resistencia a la tracción y ruptura
- Las capas de fibras integradas, entrelazándose y conformando el espesor y estructura al papel
- El papel de filtro no sólo atrapa las partículas en la superficie, sino también las encierra en el medio impidiendo así que muchas partículas pasen al motor

Fiabilidad con la MÁXIMA protección para el motor

Informations Techniques

Filtres

Pourquoi opter pour les filtres Champion ?

Les filtres pour motos Champion sont développés selon des procédures d'ingénierie qui égalent, voire surpassent, les normes d'origine. Ils sont produits à partir de matériaux de qualité supérieure, en appliquant les normes de fabrication les plus strictes, garantissant l'absence virtuelle du moindre défaut. Sur la route (et en dehors des sentiers battus), ils assurent une performance optimale et une protection inégalée.

Avantages du choix Champion

Durée de vie plus longue

Des tests indépendants (ISO 4548 – pour le filtre à l'huile et ISO5011 – pour le filtre à air) ont démontré que les filtres Champion surclassent la concurrence et nous garantissons en plus de la qualité pour toute notre gamme de filtres motos.

Efficacité tout au long de la durée de vie du filtre

Tests menés par des laboratoires indépendants selon les normes ISO4548/4. Les résultats montrent que les filtres Champion sont plus efficaces que les filtres concurrents.

Longévité des filtres

Performance améliorée

Notre papier filtrant est unique et imprégné de résine qui élimine même les contaminants les plus néfastes de l'huile. Gaufré, durci et assemblé mécaniquement pour garantir un filtrage à 100%.

- Imprégné de fibres sophistiquées qui assurent rigidité et excellente résistance à la pression et à l'éclatement
- Le maillage des fibres donne structure et profondeur au papier
- Le papier filtrant capture non seulement les particules en surface, mais il les enferme également à l'intérieur du support, laissant passer nettement moins de particules vers le moteur

Fiabilité et protection MAXIMUM du moteur

Technische Information

Filter

Warum Champion wählen?

Champion Motorradfilter sind präzisionsgefertigt, um den Ansprüchen der Originalhersteller zu entsprechen oder sie zu übertreffen. Sie werden aus Materialien höchster Qualität und gemäß anspruchsvollen Standards hergestellt und gewährleisten so praktisch Störungsfreiheit. Auf der Straße (und im Gelände) erbringen sie maximale Leistungen mit beispiellosem Schutz.

Vorteile von Champion

Längere Lebensdauer

Unabhängige Tests, (ISO 4548 - Öl, und ISO5011 - Luft) haben gezeigt, dass Champion-Filter die Konkurrenz leistungsmäßig übertreffen, und wir garantieren Qualität für unser gesamtes Motorradfilter-Programm.

Wirkungsgrad im Lebenszyklus

Der Test wurde von einem unabhängigen Institut gemäß dem Industriestandard ISO4548/4 durchgeführt. Das Diagramm zeigt deutlich, dass Champion wirksamer filtert als die Mitbewerber.

Lebensdauer der Filter

Überlegene Leistung

Unser Filterpapier ist einzigartig und imprägniert mit Harz, das sogar die schädlichsten Schadstoffe aus dem Öl beseitigt. Gefaltet, ausgehärtet und mechanisch verbunden, um 100% Filtration zu garantieren.

- Imprägniert mit hochentwickelten Fasern, die Steifigkeit, gute Zug- und Druckfestigkeit gewährleisten
- Miteinander integrierte Faserschichten verleihen dem Papier Tiefe und Struktur
- Das Filterpapier fängt nicht nur Partikel auf der Oberfläche, sondern schließt auch Partikel innerhalb des Mediums ein, wodurch viel weniger Partikel in den Motor gelangen

COLD TYPE

Plug operates at higher temperatures
& dissipates heat quickly

HOT TYPE

Plug operates at lower temperatures
& retains more heat, dissipates slowly

For guidance only, use application data for correct recommendations

POWERSPORT™

Fine-wire centre electrode and V-trimmed ground electrode produces the sharpest spark focus.
Long life and performance that far exceeds conventional plugs.

CHAMPION POWERSPORT™ DESIGN

Extra strong terminal to
Endure under extreme use

Q-Type Racing
Specification
Suppressor for
RFI Protection

Double Copper Technology
Copper Core Centre Electrode
Copper Core Ground Electrode

THERMAL CONTOUR FIRING TIP

Projected Core Nose

- Extended nose projection of the plug creates a longer path for heat to travel.
- The plug stays hot during periods of prolonged idling...preventing cold fouling.
- The plug stays cool at High RPM due to the Charge Cooling effect of the incoming Air/Fuel mixture.
- This gives POWERSPORT a much more dynamic heat range over standard plugs.

All of these characteristics allow you to use only one powersport code in replacement of different standard codes (see the table)

POWERSPORT™

EN

Power Boost Firing End

Fine-wire projected electrode design delivers more power and maximum fouling protection. V-trimmed ground electrode keeps spark concentrated through all engine demands.

'Q' - Suppressor

Wire-wound low-ohm resistor enables full ignition energy to reach the cylinder where it is needed most.

Thermal Contour Firing Tip

Modifies electrode heat transfer to prevent deposits while idling and plug overheating during high-speed operation.

I

Punta di accensione che aumenta la potenza

L'elettrodo sporgente a filo sottile consente maggiore potenza e la massima protezione dagli imbrattamenti. L'elettrodo di massa a V mantiene la scintilla concentrata in presenza di qualsiasi fabbisogno del motore.

Soppressore 'Q'

La resistenza a filo a spirale a basso valore ohmico consente a tutta l'energia della scintilla di raggiungere il cilindro laddove è più necessaria.

Punta di accensione a contorno termico

Modifica il trasferimento di calore degli elettrodi impedendo la formazione di depositi al regime di minimo e il surriscaldamento della candela agli alti regimi.

E

Extremo de encendido que aumenta la potencia

El diseño de electrodo proyectado de filamento fino proporciona más potencia y una máxima protección contra la incrustación. El electrodo de tierra terminado en 'V' mantiene concentrada la chispa durante todas las exigencias del motor.

Supresor 'Q'

Resistor de hilo bobinado de baja resistencia que permite la llegada de la máxima energía de encendido al cilindro donde sea más necesario.

Punta de encendido de contorno térmico

Modifica la transferencia térmica de los electrodos para impedir la formación de depósitos al ralentí y el recalentamiento de la bujía durante la operación a alta velocidad.

F

Pointe d'allumage plus robuste

L'électrode saillante à fil fin favorise plus de puissance et une protection maximale contre l'encrassement. L'électrode de masse en V concentre parfaitement l'étincelle, peu importe les exigences du moteur.

Dispositif antiparasite de type 'Q'

La résistance à bobine à induction à faible résistance ohmique permet à toute l'énergie de l'étincelle d'atteindre le cylindre, là où elle est le plus nécessaire.

Pointe d'allumage à contour thermique

Modifie le transfert de chaleur afin de prévenir l'accumulation de dépôts au ralenti et la surchauffe de la bougie lors de la conduite à haute vitesse.

D

Zündung mit Power Boost

Ein mit Feindraht geschütztes Elektroden-Design ergibt mehr Leistung und maximalen Schutz vor Verschmutzung. Die V-beschnittene Masseelektrode hält die Zündkerze während sämtlicher Motoranforderungen konzentriert.

'Q'-Entstörer

Drahtgewickelter Widerstand mit geringem Ohm ermöglicht, dass die vollständige Zündungsenergie den Zylinder erreicht, wo sie am meisten benötigt wird.

Zündungsspitze mit thermischer Kontur

Modifiziert den Wärmetransfer der Elektrode, um Ablagerungen während des Leerlaufs und die Überhitzung der Kerze im Hochgeschwindigkeitsbetrieb zu vermeiden.
